# A TRIBUTE

**Dr. B. R Ambedkar**

*Architect of Indian Constitution*

Born on April 14, 1891 into a Dalit family Babasaheb Ambedkar as he became popularly known later, pursued his academics across premium Institutions in India, the USA and UK. His legendary erudition in many subjects made him a prominent jurist, economist, political leader and a social reformer who commanded profound respect.

In 1947, when India became independent, the first Prime Minister Pt. Jawaharlal Nehru, invited Dr. Ambedkar, who had been elected as a Member of the Constituent Assembly from Bengal, to join his Cabinet as a Law Minister. He was unanimously chosen to lead the committee entrusted by the Constituent Assembly for drafting the Constitution. In February 1948, Dr. Ambedkar presented before the nation the Draft Constitution which structured the legal system of Independent India. It was adopted by the Constituent Assembly on November 26, 1949 and came into effect on 26 January 1950. It is the longest written constitution of any sovereign country in the world, containing 448 articles in 25 parts, 12 schedules, 5 appendices and 98 amendments (out of 120 Constitution Amendment Bills). In October 1948, Dr. Ambedkar submitted the Hindu Code Bill to the Constituent Assembly in an attempt to codify the Hindu law.

Dr. B.R Ambedkar, throughout his political life, fought against the tyranny of casteism that he along with millions of people in the country was subjected to due to their birth.

Inspired by the noble cause of education and philanthropic zeal, a group of twenty-two like minded industrialists in Kolkata established in 1990 the Kalyan Bharti Trust (KBT), a public charitable foundation, to promote and provide higher education in the country and in the State of West Bengal, in particular. To achieve KBT's objective, The Heritage School (THS) and the Heritage Institute of Technology (HIT-K) were set up in 2001, while The Heritage Academy (THA) came up in 2007. Management Education Centre of HIT-K, has been accorded an independent status by AICTE as Heritage Business School (HBS) in 2013. The Trust then decided to set up Heritage Law College that started functioning from year 2015-2016. The Heritage College (THC) then started its journey from year 2016-2017. Future plans of KBT include setting up a Design Institute and finally a University in the near future.

Heritage Law College (HLC) has been set up with a view to advancing and disseminating learning and knowledge of Law as well as legal processes and their role in national development. The aim is to promote legal knowledge and to make law and the legal process efficient instruments of social development. The educational philosophy at HLC is dedicated to develop in students the sense of responsibility to serve the society in the field of Law by developing skills with regard to advocacy, legal service, legislation, law reforms and the like and also to promote inter-disciplinary study of law in relation to management, technology, international cooperation and development. A harmonious integration of valued traditions with modern outlook is the guiding principle behind the development of the academic environment that constitutes the basic philosophy of HLC.

# WELCOME MESSAGE

Importance of the study of law has never been questioned, although the efficacies of the laws prevailing in this country and that of our legal system have been questioned by many, a number of times. In order to have a good legal system and, to establish and preserve the Rule of Law, we need good lawyers and, in order to produce good lawyers, we have to have a good system of legal education. A lot is there to be done to improve the quality of legal education in this country. It is a huge task, and it requires collective efforts of all concerned to improve the quality of legal education as a whole. A Law College can simply try sincerely to impart meaningful legal education into students and to allow them sufficient space and scope for growing into competent lawyers.

At Heritage Law College, we assure students of all sorts of help in understanding the laws, the basic principles of laws and the scope and their areas of application. A good library and access to almost all the leading law journals would supplement the classroom teaching.

We sincerely hope that the period of their learning at the College may remain as a fond memory to be cherished for the rest of their lives.

Welcome to The Heritage Family!

## CONCERN FOR ENVIRONMENT

The whole world is witnessing the impact of Global Warming which is due to excess carbon emission and is causing ill effect on the life and health of people all over the globe. Solar Plant is one of the suitable ways to reduce carbon emission in the atmosphere caused by fuel generated energy sources.

India is endowed with solar radiation with irradiation of 4-7 kWh per day, per square meter and enjoys close to 300 sunny days annually. Solar Plant is clean, silent, limitless and free from pollution. Solar Power Plant has 25 years of life and produces energy during peak demand time with minimum operating cost. Solar Plants are modular in nature, easily scalable, can be built relatively fast and range from a few kW to MW scale.

To have a pollution free environment and to meet the scarcity of electricity, the Heritage Group of Institutions have taken a step forward by installing a 100 kWp Stand Alone Roof Top Solar Power Plant at the Heritage Complex with the assistance of WBREDA and MNRE, New Delhi, which is first of its kind in the State of West Bengal.
